

## Flexible Space Association Awards 2021

### Technology Innovation Award

*Recognising technology innovations that have enhanced services to customers in flexible workspaces, implemented in 2020 or 2021.*

The judges will be looking for examples of excellence in delivering technology-driven projects that are innovative, and deliver benefits to customers and to the running of the workspace. We are envisaging entries covering services such as access and security, meeting room facilities and telecommunications. There may be projects which have delivered particular benefits during the pandemic, or for people returning to workspace.

The smooth and timely delivery of a planned project will be a factor in the judges' consideration, as will the successful roll-out of its use to customers and staff. Joint submissions by one or more Flexible Space Association member companies will be welcome.

Projects will need to have been undertaken during 2020 or 2021 to be eligible for this award.

The **deadline for applications is 6pm on Tuesday 26 October**. These must be submitted in electronic format to [jane.sartin@flexsa.co.uk](mailto:jane.sartin@flexsa.co.uk)

**Company Name**

**Application submitted by**

**Email**

**Telephone**

Please set out in no more than 750 words why your company should be the winner of the Technology Innovation Award.

You may also attach photographs and supplementary information, including testimonials or background details of the project. Supplementary information should run to no more than 10 pages in total, ideally submitted as a single PDF. Please move onto the next page when this text box is full.
